over 1 300 total pages introduction food is surrounded by dangerous
 agents and conditions that can make people ill as multiple handling
 and modern processing methods lengthen the journey from farm to
 table the opportunities for food to become contaminated and or
 spoiled increase the veterinary food inspection specialist helps
 protect the food utilized by the military by insuring sanitary
 control of food establishments handling food for military use this
 course discusses these sanitary controls foods undergo
 deterioration of varying degrees in their sensory characteristics
 nutritional value safety and aesthetic appeal most foods from the
 time they are harvested slaughtered or manufactured undergo
 progressive deterioration that depending upon the food may be very
 slow or so rapid as to render the food virtually useless in a
 matter of hours this presents a problem to the department of
 defense because food supplies have to be purchased well in advance
 of anticipated usage large quantities of food are lost each year
 due to deterioration the problem is due to the perishable nature of
 food as well as to the rather lengthy defense subsistence supply
 chain due to these factors veterinary food inspection specialists
 are tasked with recognizing deterioration in subsistence and making
 recommendations to preclude public health problems and financial
 losses to the government how do bacteria reproduce does the
 bacterial cell contain a nucleus what are the shapes of bacteria if
 you cannot answer these questions now you should be able to when
 you have completed this course and you should also know the answers
 to many other questions for those of you who already know this
 material let it serve as a review why are we interested in bacteria
 because some bacteria are capable of waging war on the human race
 and some bacteria are capable of benefiting our lives we need to
 know the difference bacteria are microorganisms and microorganisms

are the smallest of all organisms for example 2 000 of them can be lined up across the head of a common pin in this subcourse we will be concerned with those tiny organisms that are unfriendly because they are responsible for a large percentage of spoilage in foods we believe it is important to know about those microorganisms that cause food deterioration so that we can eliminate deterioration in foods before it occurs
